EDITO

Living through difficult times reinforces how important getting outside and spending time by the water is for us. Between climate change and pandemic restrictions, enjoying our sport has been unusually complicated recently. Despite the difficulties angling is booming with significant increases in participation across Europe pointing to a bright future. We are as passionate as ever about angling and take great pleasure in developing new products that are technical, functional and cover a range of price points so the sport remains accessible to all. We are sure you will find the tackle needed to get the most from time spent fishing. At Sensas we pride ourselves on being close to anglers on the bank both in terms of identifying product need and helping offer tips and advice to put more fish in the net.

Looking at new products for the year ahead we have developed new products for match, feeder and carpodrome anglers.

- We have enlarged our Series 4 Parallel range with new models
- Two exciting new ranges of feeder rods: BLACK ARROW 600, top quality rods that are great value for money and the BLACK ARROW SLIM COMPETITION, super thin precision blanks with top class fittings.
- Our CRAZY BAIT range continues to grow with new flavours and products to meet the needs of demanding commercial/carpodrome anglers.
- New feeder and waggler nylons and new hooks to nylon products

covering pole, carpodrome, feeder and method disciplines. Plus 3 new elastic ranges to give you more options when targeting bigger fish.

- Seatboxes, luggage and clothing ranges have all been extended with new products.

We are working on other new products that are not quite ready in time to be included in this edition of the catalogue but you can be sure of new product launches during the coming season. Stay in touch with all the developments using social media. We strive to produce innovative, quality content with unmissable videos featuring the unrivalled expertise of our top SENSAS anglers.

Sensas continues to support and foster grass roots angling. This year we are organising several important big competitions, providing health restrictions allow: the Sensas Festival, the Crazy Bait Final, the Sensas Challenge and other competitions across France and Europe. We would like to take time to thank all the match organisers without whose efforts none of this would be possible. THANK YOU one and all!

So without further ado it is time to look through the catalogue and discover what is on offer for the coming season. We wish you as much pleasure using our gear as we got from developing it and remember to share photos and experiences with us on social media.

Wishing you all an excellent angling season

SENSAS 3000 BROWN

3000 Brown - the ultimate versatile groundbait. The deep brown colour lets you use these groundbaits all year round with confidence. Milled finer than other classic 3000 groundbaits, 3000 Brown keeps its colour once on the bottom! Whatever your style of fishing there will be a brown groundbait for you.

3000 LAKE BROWN

Fine particle groundbait that holds together well and can be used all year round. The ideal base for all your stillwater mixes.

3000 BIG ROACH BROWN

A big roach groundbait that binds well and has a great match winning pedigree. The brown version is a genuine all year round feed!

3000 ROACH BROWN

This classic roach groundbait is not too sticky and works well for all species of silver fish. Smells great and works quickly to pull fish into your swim.

3000 BREAM BROWN

Great smelling groundbait developed for holding bigger silvers like bream and crucians in your swim. The mix binds well and has bigger particles which help select better quality fish.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

SENSAS 3000 DARK SALTED

These salty mixes will give you an edge when conditions are hard and they work all year round, not just in winter. Try them out even in high summer when the waters are warm and you will be surprised at the results! Extensive field testing has proven their value in all conditions.

3000 DARK AND SALTY BREAM

Fine groundbait that is slightly binding. Mixed for skimmers and bream. Works best on those days when the fishing is hard and the fish are not feeding confidently.

3000 DARK AND SALTY ROACH

A fine textured groundbait which targets roach of all sizes. Works best when the water is either cold or very warm.

3000 DARK AND SALTY LAKE

Versatile groundbait which works on all species. Fine particle size which works rapidly and will quickly pull fish into your swim.

3000 DARK AND SALTY RIVER

Fairly sticky groundbait with particles ground to a medium size. Suitable for mid to fast paced rivers. Will attract roach of all sizes and skimmers and bigger bream. Ideal also on big navigable waterways.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€
71222	3000 DARK AND SALTY BREAM 1KG	2.5/5	2.5/5	2/5	Black	Bream, Small bream, Big bream...	Winter/Summer	to 50 at 55	5.99

SENSAS 3000 SUPER BLACK

Range of groundbaits developed for year round fishing in clear waters. Carefully manufactured so the colour lasts all through your fishing session. The dye stays in the groundbait so you will not stain your hands mixing these feeds! They have already proved themselves in countless matches so if conditions are tough and water clarity a problem give these 3000 Super Black mixes a go!

Top Mix from Christophe Noualhier

River- medium flow
2 kg Sensas 3000 Super Black Bream
1 kg Sensas 3000 Super Black River
1 pkt Brasm Big Fish
6 kg terre de rivière

3000 SUPER BLACK BREAM

Fine particle size, slightly sticky groundbait perfect for targeting bream and skimmers on tough venues especially where pike are a nuisance.

3000 SUPER BLACK CANAL

Fine particles and low binding characteristics make this the perfect groundbait for clear canals and roach in particular

3000 SUPER BLACK LAKE

All year round mix that can be used either with leam or other BLACK series groundbaits.

3000 SUPER BLACK CARP

Perfect for carp waters where the fish are under a lot of pressure.

3000 SUPER BLACK ROACH

Fine particle size and medium binding properties make this the perfect mix for using in cage feeders even in slightly deeper water.

3000 SUPER BLACK RIVER

Medium particle size and fairly sticky mix that works best in medium and fast flowing clear rivers.

SENSAS TIPS

Despite what you might think black groundbaits work all year round - not just in winter! With increased water clarity fish are warier and harder to catch than in years gone by. SENSAS 3000 SUPER BLACK is the answer to clear water conditions throughout the year!

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

SENSAS 3000 CLASSICS

EXPLOSIVE - FINE TEXTURE

Fast acting mixes designed to pull fish quickly into your swim. Active ingredients make sure the groundbaits disperse quickly to get fish feeding sooner! You'll get some explosive results with these groundbaits!

EXPLOSIVE BREAM

A fine, yellow groundbait that 'works' immediately on contact with the water. Like all the other groundbaits in the 'Explosive' range, you can add Terre de Somme and damp yellow leam to create more of a cloud to hold skimmers and bream.

EXPLOSIVE GARDONS (ROACH)

A fine-textured groundbait that turns an attractive shade of brown when mixed. It has a subtle smell and 'works' rapidly in the water. It's a brilliant groundbait for roach and very versatile when mixed with Terre de Somme in varying quantities.

3000 EXPLOSIVE RIVER BRASEM

Fantastic groundbait that pulls in quality fish quickly. Works best in summer when big fish are most active and the water has fully warmed up.

3000 EXPLOSIVE ROACH/LAKE

Sometimes when using a classic groundbait it can be difficult to pull in fish which are holding off the baited area. The fast action of the 3000 explosive lake will disperse through the water quickly and pick up any flow or drift to draw fish quicker to your feed.

Ref	Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€
10781 EXPLOSIVE BREAM 1KG	2/5	2/5	2/5	Yellow	Bream, crucians...	Spring/Summer	to 70 at 75	5,99
10351 3000 EXPLOSIVE ROACH/LAKE 1KG	1.5/5	1.5/5	2/5	Light brown	Roach, bream...	All	to 75 at 80	5,99
10741 EXPLOSIVE GARDONS (ROACH) 1KG	1.5/5	2/5	2/5	Brown	Roach, big Roach...	All	to 100 at 105	5,99
64652 3000 EXPLOSIVE RIVER BRASEM 1KG	3/5	3.5/5	4/5	Brown	Bream, crucians...	Spring/Summer	to 50 at 55	5,99

This range is designed with the matchman in mind. With their fine texture these groundbaits are perfect for catching wary or pressured fish. Very popular for difficult fishing on canals and other waters that are not affected by strong currents. A favourite with top matchmen on the tough canals and lakes of Northern France.

3000 CANAL NOIRE (BLACK) FINE TEXTURE

This is the perfect winter mix combining a fine texture with a sombre black colour. A must for all difficult fishing conditions where care is needed in feeding your swim. Also suitable for lakes and slow moving rivers.

3000 ETANG (LAKE) FINE TEXTURE

This versatile mix is perfect for all stillwater situations where the fish are not really having it. Highly adaptable - this mix is perfect for all situations where you are worried about overfeeding fish.

3000 GARDONS (ROACH) FINE TEXTURE

A fine-textured version of the successful 3000 Roach, this groundbait is ideal for delicate roach fishing.

3000 GROS GARDONS FINE TEXTURE

A fine-textured version of the famous Gros Gardons that is slightly more sticky. Very good for big roach on canals affected by the opening and closing of locks.

N 3000 GROS GARDONS FINE TEXTURE BLACK

Black version of our famous 3000 Gros Gardons Fine Texture groundbait. A classic for roach fishing particularly on clearer venues.

Ref	Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€
10391 3000 CANAL NOIRE (BLACK) FINE TEXTURE 1KG	2/5	1.5/5	1.5/5	Black	Bream, Roach...	All	to 65 at 70	5,99

09923 3000 GROS GARDONS FINE TEXTURE 3KG	4/5	3.5/5	2.5/5	Dark brown	Big Roach, bream...	All	to 45 at 50	15,99
40431 3000 GROS GARDONS FINE TEXTURE BLACK 1KG	4/5	3.5/5	2.5/5	Black	Roach, bream...	All	to 45 at 50	5,99

Our classic groundbaits have stood the test of time and been developed to work on diverse venues and different fishing styles: canal, lake, river, waggler or bolo fishing etc. The 'Classic Range' is the result of close collaboration between our technicians and top match anglers throughout Europe. These are pedigree groundbaits with a proven fish catching track record!

3000 ETANG NATURAL (LAKE)

Versatile mix suitable for all types of still water fishing. It can slow the action of a surface groundbait, or give a heavier groundbait more action.

3000 ETANG BROWN LAKE

A very good bait for lake fishing. Very active - good for skimmers and roach and any medium sized fish.

3000 ETANG YELLOW LAKE

Highly visible yellow groundbait - ideal for top up feeding for summer skimmers and bream.

3000 ETANG BLACK LAKE

A very fine dark groundbait designed for difficult fishing in clear water. Works best when used with other dark groundbaits like Noire etc.

3000 ETANG RED LAKE

Great early season groundbait for coloured waters

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

shallow lakes
2 kg Sensas 3000 Lake
1 kg Sensas 3000 Gros gardons fine
1 kg Sensas 3000 Explosive lake
1 pkt Super grilled hemp
2 kg terre de Somme

3000 SUPER LAKE BREAM

This cream-coloured groundbait works quickly to create a light-coloured carpet on the bottom which will attract bream from a good distance. Ideal when regular balls of groundbait are required.

3000 SUPER LAKE ROACH

A fine, non-sticky groundbait which is not quite as rich as the standard Lake groundbait. An excellent roach groundbait for calm water conditions.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€
10311	3000 SUPER LAKE BREAM 1KG	2/5	3/5	2.5/5	Beige	Bream, Big fish...	All	to 55 at 60	5,99

SENSAS 3000 CLASSICS

BOTTOM - RIVER

3000 FOND (HEAVY MIX)

A heavy, binding groundbait which is light brown in colour and designed for big fish on the bottom.

3000 SUPER FOND (SUPER HEAVY MIX)

Contains large particles, light in colour, with lots of binding power for strong currents.

3000 BARBEL WITH CHEESE

Same as 3000 barbel, only cheese flavoured. A very successful bait used in the south of France.

3000 RIVIERE (RIVER)

Containing large particles and lots of binder. It is orange in colour and suitable for medium to strong flows. Good for big bottom feeding fish.

Top Mix from Robert Berlioux

Big river fish – medium to fast flow
 1 kg of Sensas 3000 Super Fond
 1 kg of Sensas 3000 River
 1 kg of Sensas 3000 Big Roach
 1 packet Super Bremix
 6 kg of terre de rivière

3000 SUPER RIVER BREAM

A sticky, light-coloured groundbait containing fluorescent particles much loved by bream. Perfect for regular feeding on rivers.

3000 SUPER RIVER ROACH

A dark brown groundbait which is fairly sticky and dense in texture. Specially developed for big roach in rivers.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

Range of groundbaits designed to be quick acting and pull fish fast into your swim. Rich in active particles such as ground seeds. Each groundbait has been blended to target different species making these groundbaits more selective and faster acting than other feeds.

3000 ATTRACTIVE BREAM

Light beige coloured bream groundbait. Enhanced with particles to appeal to larger bream. This light coloured groundbait is a positive mix and one for using when big nets of bream are on the cards.

3000 ATTRACTIVE CARP

Carp love seed baits so they'll love this groundbait! This mix will hold carp in your swim for hours!

3000 ATTRACTIVE LAKE

A fast acting all-round lake groundbait - perfect for using on its own or as a base mix with other groundbaits.

3000 ATTRACTIVE ROACH

This dark brown groundbait is a real roach magnet! Boosted in seed particles making the groundbait very active. This extra seed attraction is guaranteed to hold roach longer in your swim!

3000 ATTRACTIVE GROS GARDONS

Made with coarser particles than the «attractive roach» to help select bigger roach. Light brown in colour.

Top Mix from Arnaud Dupin

Bream in slow moving rivers:

SENSAS 3000 SPECIFICS

CANAL - ROACH - BIG ROACH

The vast experience of all the «Team Sensas Anglers» has been used to develop these top quality specialist groundbaits. They are perfectly adapted to the requirements of the target fish attracting and holding them in your swim.

3000 CANAL

Dark, salty groundbait with low food content. Perfect canal roach mix.

3000 SUPER CANAL GARDONS (ROACH)

Contains very little binder. Dark and sweet, it has been designed for difficult roach fishing when you have to ball in all the feed at the start and the fish won't take any topping up..

3000 NOIRE BLACK

This popular dark sticky Roach Groundbait is most successful for difficult fish in cold waters.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

Top Mix from Éric Laudier

Roach on small canals
2 kg Sensas 3000 Canal
500 g grilled hemp
500 g of Attractor
4 kg terre de Somme

3000 GARDONS (ROACH)

Brown in colour and light in texture, this quick acting groundbait is one of the most successful feeds in Europe.

3000 GROS GARDONS BIG ROACH

A dark brown groundbait with large particles that interest the bigger roach in your swim.

3000 GARDONS RED ROACH

Good for big roach in winter, spring and Autumn, effective in coloured water

3000 GROS GARDONS BIG ROACH BLACK

A black groundbait created to tempt bigger roach in difficult conditions, especially when the water is cold and clear.

Top Mix from Alexandre Caudin

Top up feeding for skimmers on lakes and slow rivers
 2 kg of Sensas 3000 Skimmer
 1 kg of Sensas 3000 lake
 1 packet Belgian Brasmé
 2 kg of damp leam

N 3000 SKIMMER

As the name suggests, this is a groundbait developed specifically for skimmer fishing. Suited to both initial and top up feeding. The mix is relatively light and orange coloured, perfect for shallow lakes and canals and fishing up in the water.

N 3000 AMERICAN CATFISH

Developed specially for match fishing targeting American catfish. In water over 2 m deep you can make the mix heavier simply by adding terre de rivière. Designed to keep catfish feeding in your swim over a long period without filling them up.

3000 TENCH

Dark, rich and heavy, this groundbait gives off a pleasant aroma much loved by tench.

3000 BREAM

Contains fluorescent red and yellow particles which attract and hold bream in a swim.

3000 BREMES YELLOW CLOUD

A soft yellow mix with little binder, for regular feeding and midwater fish.

3000 SUPER BREAM

Developed in the UK. Super Bream is perfect for targeting bigger bream

3000 SUPER BREAM WITH FISHMEAL

The popular Super Bream with added fishmeal especially for targeting bream and skimmers on waters that see a lot of pellet feed.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

Waggler on shallow lakes
 2 kg Sensas 3000 Moulinet
 1 kg Sensas 3000 lake
 1 kg Sensas 3000 Bleak
 2 Kg terre de Somme
 1 pkt Super Bremix

3000 SPECIAL WAGGLER

A groundbait containing large particles and is a good binder. For large bottom feeding fish. Easy to catapult at distance.

3000 WAGGLER SPECIAL ANGLAISE

A groundbait specially designed to be catapulted. Although a heavy mix, it starts to break down immediately it hits the bottom.

3000 GIALLA

A yellow, coarse textured groundbait for big fish. Very popular in Italy for carp, crucians and carassio.

3000 SUPER ANGLAISE (BREAM)

This orange coloured groundbait is medium binding with a powerful brasmel smell to attract big bream. PV1 or River can be added if a firmer mix is needed.

3000 CRUCIAN

A coarse grained groundbait that takes on a lovely yellow colour once wetted which crucians cannot resist. This high food value mix can also be used to target other big fish like tench, bream and carp.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

Nicolas FIMBEL, Diego PELIZZA,
Yann FERNANZ

3000 CARP YELLOW

A protein-rich groundbait for carp. Can also be used as a method mix.

3000 CARP RED

Protein rich red groundbait perfect for coloured waters.

3000 CARP BLACK

A dark version of the very successful classic 3000 carp. Ideal for winter fishing when the cold makes fish more cautious.

3000 CARP FINE PARTICLES

It's fine texture makes this mix very versatile, suitable for all large bottom feeding fish.

3000 CARP

A light coloured protein-rich groundbait an ideal particle carrier. It binds well and is designed for carp and big fish.

Top Mix from Christophe Noualhier

Big river fish.
2 kg Sensas 3000 gros gardons
1 kg Sensas 3000 carp fine particles
1 kg Sensas 3000 River
1 packet Vanille
6 kg terre de Riviere

3000 CARP LARGE PARTICLES

There are some extra large particles in this protein-rich and binding groundbait. Ideal for baiting up for big carp.

3000 CARP FISHMEAL

The addition of fishmeal to this already successful carp groundbait has made it even more attractive to carp!

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€

SENSAS 3000 SPECIFICS

BLEAK & SURFACE - SMALL FISH

3000 ABLETTES (BLEAK)

This groundbait forms a light and lingering cloud in the water to hold bleak in your swim. Best when overwetted.

3000 SURFACE

A very light groundbait with little binder which is light in colour. Perfect for small fish feeding at the surface or in midwater. Expands on mixing.

3000 ABLETTES (ORANGE BLEAK)

A light soft textured groundbait perfectly suited for bleak fishing. It's bright orange colour makes it highly effective whatever the season.

Ref		Sticky Power	Rich	Size particles	Color wet	Fish	Season	Water quantity (cl)	RRP€
00771	3000 ABLETTES (BLEAK) 1KG	2/5	1.5/5	1.5/5	White	Bleak, bream up in the water...	Spring/Summer	to 80 at 85	5,99

3000 GUDGEON

Dark brown colour with little food value perfect for gudgeon, attracting them without over feeding.

3000 BULLHEAD

A designated fine yet sticky ground bait that lets you target bullheads all year round

RECORD 515 YELLOW

Special small fish groundbait used by Fernand Manière to set his famous speed fishing record of 515 fish in one hour! Creates a fine yellow cloud in the water.

RECORD 515 RED

Special small fish groundbait used by Fernand Manière to set his famous speed fishing record of 515 fish in one hour! Creates a fine red cloud in the water.

3000 LAKE

Versatile and our most popular mix. Full of attractors that work constantly in your swim to keep all species interested. The base to many of Team England's successful mixes.

3000 FINE LAKE

The same successful formula as Natural Lake but ground more finely. Ideal when you need to attract the fish but do not want to overfeed them.

3000 BLACK LAKE

The black equivalent. Perfect for clear waters and difficult conditions.

3000 RED LAKE

Great during the summer months. Particularly good for Skimmers.

3000 MAGIC NATUREL

An old favourite. This sweet mix is great for Skimmers and Bream.

3000 MAGIC BLACK

A winter mix, fine, black and full of sweet active ingredients.

3000 MAGIC RED

A popular summer mix. Magic Red is ideal for coloured waters. Its sweetness makes it a perfect Bream and Skimmer mix, both for feeder fishing or balling.

3000 RIVER

Another popular mix. Can be mixed heavy to go straight to the bottom of fast rivers. Full of feed, with medium sized particles.

3000 RIVER BLACK

The same consistency as River Natural. In clearer water Black River gives fish confidence to feed.

3000 MATCH BLEND

A relatively dark low-feed groundbait that breaks down quickly. Perfect for harder conditions on smaller canals and lakes.

3000 FORMULA SUPREME

With a light, fluffy and open texture this groundbait is ideal for fishing «on the drop» when fish are feeding off the bottom. Having very little feed content it's a great small fish bait when the need is not to overfeed. Adding a few handfuls of Match Blend will increase the food content and stiffen the mix for deeper waters.

3000 TON-UP

This versatile groundbait can be mixed normally to feed by catapult and by hand or a little drier for the feeder. With its orange colour, Brasmel flavouring and added coloured particles it will attract Bream and big fish from a distance and hold them in your swim for hours.

3000 SUPER CANAL BLACK

Designed for small and large canals. This is a fine dark groundbait that holds together remarkably well.

3000 SUPER ROACH

A real winner widely used all across the country. This versatile Roach mix can be blended to suit any venue. Full of ingredients loved by roach everywhere.

3000 RIVER BREM

A sticky, light coloured groundbait containing coloured particles. Loved by Bream perfect for pole or feeder fishing on rivers.

3000 NATURAL BREM

Always a winner this bream groundbait is full of sweet particles Bream love. Its fluorescent yellow and red particles attract and hold Bream in the swim.

3000 SUPER BREM RED

Bream 3000's red equivalent. A great feeder bait, especially in coloured water.

3000 SUPER CARP

A protein rich, light coloured groundbait with high food value particles keep big fish in your swim.

SENSAS 3000 SPECIFICS

CLUB

This new range of groundbaits have been developed to meet the needs of the modern match angler. As angling pressure increases and fish wise up to standard baits, thinking anglers need an edge to stay in front. The 3000 club range does just that. Each mix is perfectly suited to a species or a type of venue or technique. So stay in front and team up with the new 3000 club range!

3000 CLUB LAKE

A lot of hard work has gone into getting this groundbait exactly right. The result is a pale, fine grained mix which will hold together whilst you feed it yet break up rapidly once on the bottom. A lovely lake blend which is both easy to work with and extremely attractive to fish.

3000 CLUB RIVER

This mix binds well and has a medium texture. Versatile groundbait suitable for the majority of river venues.

3000 CLUB CARP & BIG FISH

As you would expect this is a richer, heavier mix with a distinct beige cream colour once wet. Big fish beware- this groundbait has your name on it!

3000 CLUB BREAM

Similar in composition to the 3000 Club Bream, this dark brown groundbait is perfect where you want a darker mix to blend in with the colour of the bottom.

3000 CLUB BIG ROACH

Roach mix with slightly larger particles to select better quality fish. Goes an attractive deep brown once wetted.

3000 CLUB BREAM

This groundbait goes a deep yellow when wet - ideal to pick out bream from other silver fish. Holds together well without being too sticky. The 3000 bream can be used on its own or mixed with another club range groundbait as conditions dictate.

3000 CLUB ROACH

This is a relatively fine groundbait which will break up quickly one in the water. Takes on a lovely rich brown colour once wetted.

SENSAS 3000 READY

OPEN, RIDDLE, FISH ! We all know how difficult it is to wet a groundbait perfectly. The 3000 READY groundbaits are the new convenient answer to this problem! With 3000 READY the groundbait has already been perfectly wetted for you. All you have to do is open the bag, give it a quick riddle to knock the lumps out and get fishing! Contained in each pack is the benefit of years of experience gleaned by top Sensas match anglers in the art of groundbait preparation. With your groundbait mixed by champions all that you have to do is fish like one!

3000 READY SEA

Mixing a groundbait for sea fishing is never easy. With 3000 Ready sea groundbait we have done the hard work for you! Based on rigorously selected high quality products, 3000 Ready Sea can be used straight from the packet. The groundbait itself is wetted using sardine oil to boost the richness and attractiveness of the final mix. 3000 ready Sea groundbait is soft, food rich and binds well. All you need to do is open the packet and get fishing!

3000 READY ROACH

Take the famous 3000 Roach mix and get top Sensas match anglers to knock it up for you. The result? 3000 Ready Roach. Once you know that a champion has prepared your groundbait, you can have 100% confidence that it will be spot on!

3000 READY LAKE

This light brown groundbait is of course based on Sensas Lake 3000. Ready wetted by Sensas experts, this groundbait is simple to use and comes with a world class fishing pedigree behind it.

3000 READY CARP

Big fish groundbaits are notoriously difficult to wet correctly because they are sticky and rich. With the 3000 Ready Carp you can say goodbye to groundbait mixes that end up like gooey pudding! Here you have the world famous Sensas 3000 Carp groundbait pre-wetted for easy, hassle free use.

SENSAS 3000 SEA

3000 MULLET

Very sticky and heavy groundbait for regular feeding for mullet.

3000 SEA SPECIAL SMALL FISH

A light-textured sea groundbait for regular feeding, for small fish close to the shore (smelt, small mullet, wrasse, and garfish).

SARDINE OIL

Sardine oil is an essential additive to any sea groundbait. Boosts the attractiveness of any mix and is great for diffusing scents rapidly.

SENSAS OCEAN

N SENSAS OCEAN MIX

New range of Mix Feeds developed for inshore anglers. Depending on which mix you choose the groundbait can be more or less sticky and cloudy. Made from freshly ground ingredients, these feeds will boost your summer catches!

N SENSAS OCEAN MAGIC MIST

Groundbait mix that creates its own underwater mist! Rich in fishmeal, this mix can be fed by hand or in a feed net. Try adding 0.5l of Sensas sardine Ocean Oil to 4kg of groundbait for a quicker acting feed. Sold in a bucket for easier transport and mixing. Use 2 litres of water to mix 4kg of dry mix.

N SENSAS OCEAN MAGIC STROUILLE

Perfect groundbait for bank or boat fishing. Holds fish in your swim for a long time. Laced with ground sardine and salt and sold in a feed net. Particularly good for mackerel, chinchards, bream and other sparide species.

Can be used attached under a boat or fished from the bank, the feed net will gently diffuse groundbait throughout your session.

Drop the net under your boat to the desired depth. Midwater for bass and mackerel or on the bottom for bream and other bottom feeders.

Ref	RRP€
16369 6 KG	24,99

Our Sensas Ocean concept uses complementary elements that work together to improve your catches.

-A groundbait made from top quality ingredients and super-efficient additives that pull fish quickly into your fishing spot.

-An ultra-concentrated dip that will boost the attractiveness of groundbaits (50ml per kilo of mix) or as a bait dip to make your hookbaits irresistible.

-Ready to use paste with an easy to mould consistency. Very simple to fish on the hook- simply make a paste ball that corresponds with your hookbait. Can also be moulded around a paste spring.

N OCEAN CONCEPT HOT MUSSEL MIX

Dark, almost black groundbait perfect for bottom feeding bream and dorado. Highly attractive with mussel and shellfish extracts and amino acids that quickly pull in big fish to your spot. Can be used as a classic groundbait, in a feed bag or a feeder.

N OCEAN CONCEPT POWER SARDINE MIX

Brown coloured oily groundbait rich in fishmeal, fish proteins and sardines. Highly attractive to mullet, bass, mackerel and other fish. Pulls fish in quickly and gets them competing for food. Use it as a classic groundbait, a feed net or in a feeder.

N OCEAN CONCEPT SECRET CHEESE MIX

Near white groundbait with a strong cheese smell. Great for mullet, sea bream, garfish and bass. Works particularly well on Mediterranean coasts. Enriched with fish proteins, shellfish and seaweed extracts. Fast acting slightly clouding feed that draws fish quickly to your swim. Great for fishing from jetties and harbours and estuaries. Try feeding 5 or 6 mandarin sized balls to kick off then top up regularly with little nut sized balls. To pick out bigger fish try the sardine based Sensas Ocean Oil at 10 cl per kg. Can also be used in the feeder.

SENSAS 3000 COMPETITION INGREDIENTS

Our special opaque vacuum packaging preserves all the freshness of these ingredients. Every top match angler will tell you that fresh ingredients make all the difference. With this range you can be sure that each product will be as fresh as the day it was packed! Especially important with oily ingredients like hemp. Great for modifying the feed content, colour or binding properties of your 3000 groundbaits to suit different conditions.

SOILS AND CLAYS

TERRE DE FOND - TERRE DE SURFACE

Leams allow you to modify the mechanics of a groundbait without altering its feed content. Some leams are light and help disperse a mix whilst other leams and clays are binders. Certain leams even help a groundbait cloud on the bottom. Leams are a vital part of the modern angler's armoury!

BOTTOM LEAM

This is a dense heavy leam that lets you add weight to a mix to get it down quickly in stronger flows. Can also be used for river top up feeding where the fish respond well to noise. Available in a range of colours.

31453	BLACK 3KG	9,99

SURFACE LEAM YELLOW

Very fine clouding leam that is used to add a little weight to surface groundbaits when you need to feed by hand at distance or in a wind. Can also be used with groundbait to create mixes that break up at mid depth! Available in 3 colours.

Ref	Weight (kg)	RRP€
26571	0.5	3,99

SURFACE LEAM RED

Very fine clouding leam that is used to add a little weight to surface groundbaits when you need to feed by hand at distance or in a wind. Can also be used with groundbait to create mixes that break up at mid depth! Available in 3 colours.

Ref	Weight (kg)	RRP€
26581	0.5	3,99

STANDARD DAMP LEAM

Fine soil that is not too sticky. Slightly damp light brown coloured soil that is best suited to lakes, canals and slow rivers. Widely used in Northern France to create a soil cloud (tapis de terre) into which larger groundbait balls are fed at the start of a match.

Ref	Weight (kg)	RRP€
02412	2	3,99
02416	6	8,89
02399	20	25,99

BLACK DAMP LEAM

Black version of the base double leam mix. Perfect for clear waters and using with other groundbaits in our BLACK range.

Ref	Weight (kg)	RRP€
09892	2	5,89

STICKY TERRE DE RIVIERE

Binds more than classic Terre de Riviere to let you get more live bait straight down to the bottom.

Ref	Weight (kg)	RRP€

Powerful additive that will pull big roach and other big fish quickly to your swim.

Ref	Vol. (ml)	RRP€
03926	500	6,29

LIQUID ADDITIVES

MOLASSES

Liquid additives are designed for adding to mixing water before wetting your groundbait so every particle in the mix soaks in the flavour. Some liquid additives like «Aromix» will also act as a binder. This makes a heavier, stickier mix much used on canals to prevent particles being swept away by water movement from locks or boat/wave wash.

LIQUID MOLASSES

0302 A powerful additive perfect for using with bottom groundbaits. Deadens the mix and stops it clouding when targeting bigger fish. Mix 10-15% of molasses liquid with your mixing water making sure you dilute it thoroughly before adding to your groundbait.

Ref	Sticky Power	Fish	Sweet/Salty	% Bottom	% Surface	RRP€

SUPER FEEDER

Designed specifically for feeder fishing, these new groundbaits disperse quickly once they hit the bottom. Available in both classic and black versions. Sure to be a big hit with feeder specialists everywhere!

3000 SUPER FEEDER RIVER

New groundbait perfect for targeting quality fish in medium to powerful rivers. Great mix for fishing at distance too!

3000 SUPER FEEDER RIVER

A sticky groundbait designed for holding loads of bait in your feeder even when casting very long distances. The groundbait is not too coarse and will attract fish of all sizes.

3000 SUPER FEEDER LAKE

A versatile fine particle groundbait that binds well. Breaks down fast to pull fish into your swim!

3000 SUPER FEEDER BIG FISH

Selective groundbait best suited to targeting bigger fish at long range on big lakes or rivers.

3000 SUPER FEEDER RIVER BLACK

Similar characteristics to the Super Feeder River except in a black version. Versatile mix that suits all conditions and sure to be popular amongst the growing number of feeder anglers who use dark groundbaits for an extra edge.

3000 SUPER FEEDER LAKE

Without doubt the most versatile mix in the 3000 SUPER FEEDER range. Small canals, lakes and slow moving rivers are all suited to this groundbait.

3000 SUPER FEEDER LAKE BLACK

Has all the same attributes as our Super Feeder but in a black version. Holds its colour well once in the water and can be used all year round.

3000 SUPER FEEDER CARP

As its name suggests this is a carp and big fish mix for stillwater angling. Good for casting long distances!

FEEDER AND SUPER FEEDER

3000 FEEDER SPECIAL LAKE

Attractive groundbait that will hold well in a feeder yet break up quickly once on the bottom.

3000 FEEDER ROACH

A dark groundbait that works quickly from the feeder. The feed particles attract roach from a good distance.

3000 FEEDER BREAM & BIG FISH

A mix that has enough binder to be used in a feeder but works quickly once it is on the bottom.

3000 EXPLOSIVE FEEDER

One of our finest, active, high in feed, full of crushed hemp and other fish-catching ingredients.

3000 FEEDER GROUND BAIT

This special mix is designed to disperse quickly from the feeder, giving a cloud of fish-attracting particles.

3000 READY FEEDER

Very effective and easy to use, 1 kg of this ready-to-use groundbait should be enough for an unforgettable days feeder fishing.

MIZERA

FEEDER AND SUPER FEEDER

3000 DARK AND SALTY FEEDER

Fast acting fine feeder groundbait. Medium sticky, this groundbait is versatile and can be used on rivers, lakes or canals.

3000 SUPER BLACK FEEDER

Fine particle size and medium binding properties make this the perfect mix for using in cage feeders even in slightly deeper water.

3000 ATTRACTIVE FEEDER

There are a lot of seed particles in this groundbait which ensures it works quickly once in the water – perfect for fishing with cage feeders.

3000 CLUB FEEDER

This feeder mix is designed to break up rapidly once in the water. Light brown in colour this mix is particularly suitable for cage feeder work.

New range of groundbaits for selecting carp and other big fish. Equally good on wilder rivers, big reservoirs, smaller lakes and fisheries. Based on our famous CARP 3000 groundbait with new colours and flavours. Versatile mix that suits pole and feeder fishing. The flavourings are chosen to appeal to big carp in particular.

SWEET FISHMEAL - SENSAS 3000 COMMERCIAL FISHERIES

No modern commercial fishery match angler ignores fishmeal in his feeding. This is why we have developed this range of sweet fishmeal groundbaits to meet the needs of modern fishery anglers in England and the rest of Europe. These very specific and technical groundbaits all contain a generous proportion of fish meals.

CRAZY BAIT GOLD

Demand for even more concentrated and potent groundbait has led us to develop Crazy Bait Gold with its unique «double fish flavour» the richest and most powerful attractor yet produced.

CRAZY BAIT BLACK WITH MUSSEL AND SQUID

A blend with proven Carp attractors, Mussel and Squid has incredible pulling power. The dark colour encourages even the cageiest of fish to feed with confidence.

CRAZY BAIT GREEN GOLD

Based on the unique Gold formula, the green coloured mix is highly effective on heavy fished waters where carp are very wary of regular baits.

CRAZY BAIT MARINE

High performance Marine groundbait a dark high protein and energy bait most effective on heavily fished waters.

CRAZY BAIT SHRIMP & FISHMEAL

Super flavoured Carp attractor easily mixes on its own, or as part of your favorite method mix, or paste - a truly all round Carp and big fish attractor.

MONSTER CARP

This large particled groundbait will help attract and hold big fish. This mix will break up very slowly which makes sure it stays on the bottom long enough for the big fish to find it.

CRAZY BAIT SWEET STRAWBERRY

Very effective particularly in summer when fish favour a sweeter mix, used with sweetcorn or meat, very good for F1's, Carp, Bream and particularly Tench.

BIG BAG GROUND BAIT

New range of BIG BAG (2kg) groundbaits developed specifically for the UK market. Available in 4 different mixes:

- Sweat Fishmeal Magic: Our famous Magic blend with the added attraction of fishmeal! Great for silver fish on commercials and big bream and roach on natural venues. Available in a natural and a dark option.
- UK bream feeder: The name says it all! Developed for bream fishing on big lakes. Relatively sticky mix with some fishmeal and coloured pastoncino for added attraction. Available in natural, black and green options.
- UK Power pellet: Big fish groundbait, based on ground pellets and attractive to carp, crucians, F1's, and bream. Available in natural, green and black options.
- UK Power Pellet PLUS: Same mix as above but with added whole micro pellets to hold fish in your swim longer!

Generation of highly specific groundbaits developed by our English fishery and carpodrome consultants. Based on ground pellets with top quality stimulants and additives these mixes will prove irresistible to carp and other big fish. Can be mixed up sloppy if you want, these groundbaits work quickly in the water to create a rapid and long lasting attraction. English expertise now available to all to get more from fisheries and carpodromes right across Europe.

SENSAS BIG BAG STIMUL 8

Fine textured groundbait composed of ground pellets, fishmeals, Betaine and other stimulants. Green colour much loved by carp and other big fish. Can also be used as a paste.

BIG BAG KILLER KRILL

Great groundbait containing a high percentage of krill. Particularly effective for big fish during the colder months.

SENSAS BIG BAG WHITE EXPLOSION

Fine groundbait based on top quality ground pellet, additives and appetite stimulants. The white colour is very provocative and attracts the interest of big fish quickly. Can also be mixed as a paste for using on the hook.

BIG BAG F1 CARP

Fantastic groundbait with a good percentage of ground pellets. An all year round mix that will work on F1's and other carp.

SENSAS BIG BAG HALIBUT & HEMP MIX

Fine grained groundbait blended from first class ingredients - ground halibut pellets, fishmeal, ground hemp and appetite boosters. Perfect for targeting big carp, tench and bream. Can also be mixed as a paste for fishing on the hook.

BIG BAG HEMP & TIGER MIX

This groundbait is laced with seed particles and oils. Sure to interest feeder and method anglers as well as pole specialists. Rich in hemp and tiger nuts. The combination is unusual and very effective!

CRAZY BAIT RANGE

SUPER PELLET GROUND BAIT

Groundbait specially formulated for carp match waters. A rich mix based of ground pellets that draws fish in and gets them feeding quickly. High quality base ingredients make for a highly digestible feed. Great for method feeder work and general open end feeder fishing for big fish. A lot of field testing has gone into these groundbaits to get the mixes exactly right. Available in 5 flavours that lend themselves to a range of waters and conditions. Grab a bag and give it a go – you will be impressed by the results!

MINI STICKY PELLETS

Our Mini Sticky pellets are easy and quick to prepare. Stickier than classic pellets, they hold well round a method feeder but also work well on deeper or windier venues when fed on the pole. By feeding small sticky balls you can be ultra-precise which can help reduce foulhooking when there are a lot of fish in your swim. Sticking pellets does not disperse the feed up and down in the water column and fixes the fish on the deck. Great on carp dominated match waters.

CLASSIC EXPANDERS

These expanders are exactly what demanding anglers want. They stay on the hook well yet are light in water and work well on educated fish. Best prepared with a pellet pump. Start by covering our pellets with water then pump the air and leave for 10 minutes before draining off the excess water. Perfect for tough days when the fish want the bait falling naturally through the water

Ref	Weight (g)	Size (mm)	RRP€
74378	400	4	8,49
74379	400	6	8,49

SUPER EXPANDERS

Exciting new addition to our range. These Super Expanders can be prepared without a pump and still get the perfect spongy expander texture. Simply put your expanders in a bait box, add water so that the pellets are just covered then leave the pellets to soak overnight in the fridge. The result will be perfect pellets every time. The packaging reseals easily so you need only prepare the pellets you need for each session.

Ref	Weight (g)	Size (mm)	RRP€

SUPER GROUND PASTE

Paste that just needs wetting before use. Based on ground pellets. We recommend mixing one part of water with one part of powder but this can be adapted to suit different circumstances. If the fishing is tricky try overwetting the paste to get a faster breakdown and softer texture. Conversely if the fishing is easy or small fish a nuisance try a drier mix to get a harder paste nugget on the hook. We do advise that you use a tip cup to help ship out your paste hookbaits.

CRAZY GEL

We are excited to have developed this new gel which combines flavour and colour appeal. When bites are hard to get try adding a bit of gel to your hookbaits or in your pellets or groundbait. Or around your method feeder! Once in the water the gel is viscous and stays near the bottom forming a dense flavoured cloud that fish can easily see that provokes their curiosity and appetite. The results are often simply incredible and can completely transform a swim!

09257	TUTTI 212ML JAR	4,69
09258	HONEY 212ML JAR	4,69

WINNING TIPS

WASH YOUR SWEETCORN ! Anglers like mixing different coloured sweetcorns through a groundbait. This gives plenty of scope to change baits and try cocktails of colours. However the colours in sweetcorns tend to leach out when mixed together. To prevent this from happening, riddle the grains under water with a fine-mesh riddle. Once washed of their juice the grains will hold their colour better and stay distinctively different all day long.

SENSAS TOP TIP

For casting out try using whole grains of corn on the hook as they will stay on better.

KITS

You need to know how stiff top kits are to judge the best elastics to use with each kit. So we have marked our top kits in terms of their rigidity and also given an idea of the elastics that are suitable for each kit. Scored from 1 to 5 like this:

5/5 : very stiff
4/5 : stiff
3/5 : quite stiff
2/5 : soft
1/5 : very soft

UNIVERSAL CARP TOP SERIES 3,4&5

Built on the Super Specimen mandrill and available as a top 3, top 4 or top 5 kit. The first three sections are telescopic. Extremely strong kits that take any sort of elastic. Will fit all the poles in our range but best suited to carp poles and strong match poles. We do not advise using these kits on top of the range match poles. Great for margin fishing where you need brute power to get fish away from trouble!

Ref	Section	Size (cm)	Length (m)	Weight (g)	Ind. of rigidity	Strength	RRP€
23518	3	139	3.05	74	3/5	7/10	39,90
23519	4	140	4.40	155	3/5	7/10	59,90
09501	5	150	5.95	-	3/5	7/10	124,90

Our Ghost Fighting Tops are designed to fool the wariest fish. The sky grey colour means the kits are virtually invisible against the sky – a great advantage in clear water or when fish are feeding on the surface. A real advantage when dobbing or margin fishing. Available in take apart and telescopic options.

PACK MINI-BUTTS

Pack of 3 mini-butts for protecting your no.3, 4 and 5 sections of your pole. Particularly useful when margin fishing. Compact pack that fits neatly in your holdall. Compatible with Series 4, 5 and 6 top kits.

Ref	RRP€
28380	119,00

EVA BUTT PROTECTOR

Conical plug that fits various butt section diameters. Fits Series 3 poles from the 7th section upwards and series 4,5 and 6 poles from the Number 6 onwards.

Ref		Dim.	RRP€
61298	- S	12cm - 41/45,5mm	9,30
61299	- L	12cm - 43,5/50mm	9,30

SHORT NANOFLEX

We have redesigned our short No.4 and No.6 sections making them 50cm long. These short sections will stiffen the action of your pole. If you replace a full no.4 section with a Mini Plus no.4 and a Short no.4 you can break down half way along the kit - at section 3.5- which is handy when the depth is just too much for a standard no.3 but not enough for a full 4.

Ref		Size (cm)	Weight (g)	RRP€
41188	NO.4	91	39	59,90
41189	NO.6	65	64	69,90

NANOFLEX MINI PLUS

We have redesigned all the Mini Plus sections - 4/5, 5/6 and 6/7. They are now a standard 50cm long so that your pole will always fish at full length with the no.1 tip removed from your top kit.

Ref		Size (cm)	Weight (g)	RRP€
43209	4/5 SERIES 3,4 & 5	60	37	59,90
43210	5/6 SERIES 3,4 & 5	60	46	59,90
43211	6/7 SERIES 4 & 5	60	-	69,90

SENSAS TIP

You can replace a no.4 with a short no.4 and a Mini 4/5 so you can break down at the half section if that is more comfortable.

MINI BUTT

Designed to protect the original sections of your pole. These mini-butt sections fit the no. 6 section of our Series 4, 5 and 6 poles and the no.7 section on Series 4 and 6 poles. Ideal for mid-range fishing or fishing up in the water when feeding by hand. Great for protecting your long sections when shipping back fast.

Ref		RRP€
64177	SERIES 4 & 5 - NO. 6	49,90
64178	SERIES 6 - NO. 6 - SERIES 4 - NO. 7	49,90
64179	SERIES 6 - NO. 7	39,90

EXTRA DETAILS MAKE A DIFFERENCE

The SENSAS pole ranges are designed with flexibility in mind. Because they are all developed on the same mandrills a range of fine tuning accessories like extensions, short sections and different top kits can be used on most of our poles. So whether you have a pack worth 500 or 5000 euros you can benefit from our technology and tailor your gear to suit your style of fishing!

FIGHTING SECTION

Two sections that modify your kit to achieve a Fighting Kit. Great when fishing deep venues or when you want extra long elastics!

Ref		Section	Size (cm)	Length (m)	Weight (g)	RRP€
21265	NO.4	1	149	1,49	84	109,00

STRONG SECTIONS

These are reinforced sections to add to your power kits. The extra strength in these sections make them ideal for carp fishing or when topping up repeatedly with a pole cup. Available in no.4,5 and 6 sections.

Ref		RRP€
92620	NO.4 SERIES 3, 4 & 5	84,90
90990	NO.5 SERIES 3, 4 & 5	169,90
90980	NO.6 SERIES 4 & 5	189,00

EXTENSION 6 KIT SERIES 4 & 5

Ref	RRP€
92893	89,90

There are two types of mini extension available. The simple taper or the biconic. Biconic extensions will fit two sections of your pole, for example 11M50 and 13M (equally 8.50 and 10M or 10 and 11.50M). Mini extensions are useful for adding a little extra length to your pole to help look for the odd better fish on the edges of your groundbait. They also allow you to cut pole sections back hard to fit heavy elastics without losing on overall pole length. Finally mini extensions are handy when you are sitting on pole sections or when shipping back into obstacles as they protect the more valuable main section of your pole from stress and pressure.

BUTT SECTION 11M50 SERIES 4

Reinforced butt section compatible with Series 4 and 4 XL poles. Ideal for adding to No.8 sections (11.5m) for extra strength and security.

CUPPING KITS

2 IN 1 CUPPING KIT

This is a 2 in 1 cupping kit that has been pre-cut at full length for those anglers who fish with the no. 1 section of their pole. If you remove the tip section from the cupping kit it is exactly the same length as a standard no.2 - great for those who fish without the no.1 section. Very stiff and comes complete as a top 3 or top 4 cupping kit.

CAUDIN

NANOFLEX PARALLEL SERIES 4

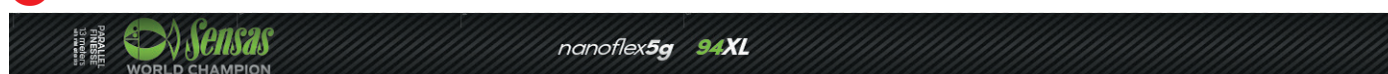

The Series 4 parallel poles are back and all new models are compatible with old Series 4 poles including the kits and down to the No. 8 section. From the No. 9 butt section onwards all sections are parallel. To avoid cluttering up your pole holdalls you can use the parallel extensions to put your cupping kit or landing net handles inside. The XL poles are supplied with two Parallel mini-extensions that fit either the 11.5m section or the 13m - perfect when fishing with the No.1 section removed. The XL poles are sure to be a big hit with top matchmen and are fantastically light and well balanced. The XL SW are stronger and stiffer and perform especially well in windy conditions. We have re-thought the top kits. The XL poles are supplied with Finesse kits with a 2.5mm internal diameter that significantly improve how the pole handles. We have also used top grade 5G carbons for extra stiffness. Look out for the new Power Match and power Carp pole. Great poles designed by specialists with models to suit every budget!

NANOFLEX PARALLEL SERIES 4

WORLD CHAMPION

Our new flagship pole range comes as close to pole perfection as we have seen. Light, stiff, well balanced and easy to handle. Poles made for the most demanding match anglers. Words alone cannot do these poles justice so try one and see for yourself!

SUPERFAST FINESSE SERIES 4

Pole designed specifically for margin to mid-range fishing or short lining for bleak. Built on the Series 4 mandrill so compatible with all our top kits. We have also designed new top kit specifically for this pole: the Finesse Top. This is a Top 2 that takes a 2.3mm external tulip at the end and is the same length as a standard top 3 with the tip section taken out. The perfect kit for targeting smaller fish and compatible with all Series 4,5 and 6 poles. Supplied with a mini no.5/6 and a short no.4 section.

A must-have pole for serious match anglers when targeting bits.

PICKING THE RIGHT WHIP

To pick the right whip you need to think of two main criteria: 1) The target species and 2) The size of those fish. It stands to reason that you don't use the same whip to target bleak and small roach under 15g compared with catfish and bigger roach weighing 30 grams plus. A solid tip would be better on the very small fish (under 15g) whereas a hollow tip better on slightly bigger fish. Picking the right whip will help you gain time and be more efficient which is often the key to success in whip fishing!

WHIPS

RECORD

ALBORELLA RECORD 195 WHIP

Ultra-light solid carbon tipped whip for speed fishing. Fast action blank for accurate flicking out and striking. Effortless to use with and ideal for fishing arm outstretched building big weights of bleak and other bits. An essential piece of kit for the serious river and canal match angler.

These are the new flagship models in our Black arrow range. Every aspect has been revised to give the user the ultimate rod handling experience. New cut away reel seat for optimal grip and comfort whilst reducing weight. New slim profile handles for fantastic casting comfort. The blank has been reworked using 5G carbon that reduces weight whilst adding some nervous power for greater casting accuracy even at distance. Exceptional products that need to be felt to be believed!

METHOD FEEDER RODS

Method Feeder Black Arrow 350 Range of rods developed specifically for method feeder anglers. The tip section is very soft to cushion savage bites and avoid hook pulls playing big hard fighting fish.

Method Feeder Black Arrow 550 Top end rods dedicated to method feeder tactics. They cast accurately and are very well balanced with a through action specifically developed for method fishing.

Range of Bolognese rods made from Nanoflex carbon. Covers all bolo situations from river fishing to light sea angling. Each rod has the perfect balance of weight and sensitivity so they handle brilliantly and are exceptionally crisp on the strike. The use of 4G Nanoflex carbon makes these rods very special and sure to be a big hit with all Bolo fans!

NANO. BOLO COMPET. CORECHEO

A rod designed to be used for shore fishing and particularly fishing the Mediterranean on the Spanish coastline. There is a thriving shore match scene in Southern Spain and this high grade carbon rod is sure to find favour amongst serious competitors. The action is also great for hard fighting river fish.

Ref		Section	Size (cm)	Length (m)	Guides (Qty)	Weight (g)	Power (gr)	RRP€

To perfectly complement your choice of waggler, feeder, bolo or method feeder rod, we offer a selection of reels from our sister company Pezon & Michel.

POWER MATCH 3000 REEL

We are thrilled to present our latest reel designed for waggler fishing. Precision engineered on stainless steel bearings, here are its main features:

- V shaped rotor arm for smooth winding. By reducing inertia the handle remains perfectly balanced at all times.
- Rust proof steel pick up for reliable long life performance.
- Semi metallic pressure moulded construction gives extra durability
- New oscillation system for even better line lay.
- Two ball bearings in the handle to ensure the smoothest and cleanest line lay possible
- Compact design
- Infinite anti-reverse
- Micrometric progressive drag

Supplied with a spare spool.

Ref	Spare Spool	Line cap.	Weight (g)	Ratio	Line cm/Handle Turn	Needle Bearing	Ball Bearings	RRP€
36308	1	0.18mm/130m	318	6.0/1	95	1	7	159,95

SPECIALIST MXC FV 350 REEL

Rear drag version of the MXC model. This reel is very compact and has been developed for distance casting. The retrieve ratio has been increased to help get waggles in and out of the water quickly. Perfectly balanced, the reel has a particularly smooth rotor which makes fishing fluid and comfortable. The micrometric drag can be fine-tuned to suit different hooklength diameters. The wide spool is fitted with Long Cast lips not only guarantees excellent casting performance but protects your reel line from wear! A classy product that is sure to find favour with demanding match anglers.

Plus points:

- Body and rotor in light and strong composite material
- Infinite anti-reverse
- Shallow aluminium spool
- Metal line clip
- Spare aluminium spool
- S-curve spiral oscillation system
- Long life pick-up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- One touch fold away handle
- 'Sensigrip' handle

SPECIALIST GOLD MEDAL FV 30 MATCH REEL

The SPECIALIST GOLD MEDAL FV300 MATCH has a high speed retrieve capable of winding back 98cm per handle turn. This light and compact reel is a perfect match for modern waggler rods. The progressive drag is easy to set and control. A conical spool helps with distance casting coupled with smooth gearing and cross spiral line lay. A joy to fish with at a price that won't break the bank!

Plus points:

- Body and rotor in composite material
- High speed retrieve (high ratio)
- S-Curve oscillation system (cross spires)
- Conical aluminium shallow spool
- Progressive micrometric drag
- Metal line clip
- Infinite anti-reverse
- Long life pick-up spring
- Consolidated bail arm
- Anti-twist line guide
- Easygrip handle

N POWER FEEDER REEL 5000

High quality reel made for the finest composite body materials that casts brilliantly without the risk of tangles and is ultra-smooth on the retrieve. Fitted with two metal line clips with springs so you can control your fishing distances throughout a session in total security. Strong, smooth and accurate. This is a reel feeder fans can't afford to be without!

- Body and rotor made from light and strong composite materials
- Infinite anti-reverse
- Aluminium spool
- Two metal line clips
- Spare aluminium spool
- S-Curve oscillation system (cross spires)
- Long life pick-up spring
- Consolidated bail arm
- Titanium anti-twist line guide

SPECIALIST FXC FV 450 REEL

A high quality reel that has been developed for competition feeder anglers. Power and solidity are essential qualities in a top level feeder reel but our field testers have had considerable input into exactly what else feeder match anglers are looking for. The Speed Control drag button lets you go from free-spooling to fighting drag position with a $\frac{3}{4}$ turn of the button. This is a real bonus when targeting carp or barbel in particular. Fitted with two metal line clips to help you keep your fishing distances accurate all through a session. The gearing is smooth and powerful – ideal for anglers who regularly land big bags of fish or fish at long range with heavy feeders. A thoroughbred feeder reel!

Plus points:

- Body and rotor in light and strong composite material
- Infinite anti-reverse
- Aluminium spool LC (long cast) lip* and shallow spool with anti-slide band
- *designed for a more fluid line transit over the spool lip for better casting performance.
- 2 Metal line clips
- Spare aluminium spool
- S-curve spiral oscillation system
- Long life pick-up spring
- Consolidated bail arm
- Anti-spin line guide
- Progressive micrometric drag system
- Speed Control drag button goes from free-spool to powerful fighting drag in less than a turn
- One touch fold away handle
- Separate double handle
- "Easygrip" handle

SPECIAL.GOLD MEDAL FV 50 FEEDER REEL

This reel is designed specifically for feeder fishing. Features a wide conical spool for distance casting coupled with excellent gearing and cross spiral line lay. The drag is quick to adjust and very precise so you can set it to match different diameters of hooklength. The 5.1/1 ration is perfect balance between retrieve speed and cranking power – so the weight of the feeder (or big fish) does not put undue strain on the reel. Metal line clip.

Plus points:

- Body and rotor in composite material
- Large capacity spool and rotor
- S-Curve oscillation system (cross spires)
- Conical aluminium Shallow spool
- Progressive micrometric drag
- Metal line clip
- Infinite anti-reverse
- Long life pick-up spring
- Consolidated bail arm
- Anti-twist line guide
- Easygrip handle

HOW TO CHOOSE THE RIGHT FLOAT ?

As you flick through the pages of this catalogue you will see a wide range of pole floats on offer. We have put together a few simple pointers to help you make the right choice -starting with a look at the different materials pole floats are made from.

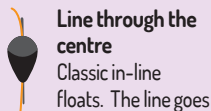

To help you select the right float we have included technical diagrams with certain patterns to better explain how they work.

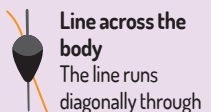

Line through the side

Your nylon runs in line through the side of the float body. Perfect for controlling a float in the flow and much stronger than conventional float eyes.

Line through the centre

Classic in-line floats. The line goes through the centre of the body along with the stem.

Line across the body

The line runs diagonally through the float body. Great for Bolo fishing when you need to hold back in a flow.

Reinforced eye

Certain floats designed for use on fisheries and carp venues feature a reinforced eye to stand up to the pressures of bagging on big fish.

BRISTLES

Wire bristles

These are the lightest and most delicate of bristles. Ideal for technical fishing and reading delicate bites. The diameters vary between 0.4 and 0.8mm (once painted). Generally these are used with light lines and small hooks. All of our wire stems are painted with a fluorescent anti-capillary paint.

Fibre bristles

These are generally made from clear fibreglass then coated with a fluorescent paint (red, yellow or orange). They are used in diameters between 0.5 and 1.5mm and are just as sensitive and more visible than equivalent wire bristles. They are tough and will not bend so they can be fished even with an eye on the bristle. These are the most versatile bristles combining strength, visibility and sensitivity.

Solid plastic bristles

These are the most widely used bristles. The plastic itself is dyed right through making these bristles very visible. Usually found between 0.6 and 4.5mm thick, covering a wide range of fishing situations. These bristles can be quickly coloured up black with the help of a marker pen but to get back the original colour you should use acetone to remove the marker pen.

Hollow plastic bristles

These are widely used on waggler and bolo floats as well as pole floats. Generally used in sizes between 1 and 6mm. Being hollow they are easy to dot right down. They are also highly visible even in poor weather conditions as the light passes through the bristle. Hollow bristles can hold up bigger baits and are ideal in strong winds or waves generated by big boats. All our hollow plastic bristles are coated in special anti-capillary paint.

Cane bristles

These bristles will take a big bait but still stay relatively sensitive. They generally have a diameter between 1.5 and 3mm. It is possible to shot these down to half bristle height or dot them right down in the water. Widely used in carpdomes.

Balsa bristles

Generally thick bristles used for big fish and big baits like paste, corn or worms. Widely used by trout anglers using big natural baits like lobworms and match anglers fishing up in the water.

EYES

Eye at the top of the body

This is the most common eye position on a pole float. The great advantage is that you can hold back on the float without the body riding up in the water.

Eye at the base of the bristle

This helps you hold back on a float because the entire float body is below the eye. This gives you better float control and can let you fish with the pole tip out of the water when holding back which makes for cleaner striking.

Line straight through the body

Often used for big fish or for bagging up and building big weights. Line through the body float are very tough and can take some hammer. They are also completely waterproof thanks to the plastic tubing which lines the central hole on each float.

Line through the side of the body

This lets you have extremely tough but sensitive floats which can be used on rivers, lakes or canals.

Eye through a balsa bristle.

These let you flick out floats without them tangling. Often used for up in the water fishing or on trout floats where the line can be wound back to create a wake in the water.

STEMS

Wire stems

All of our wire stems are treated against corrosion. These are the most widely used stems as they keep floats very stable yet sensitive. Perfect for both keeping bait still for delicate, technical presentation. Wire stems are found on all types of floats from bleak floats to big flat floats. Diameters commonly used from 0.3 to 1.2mm.

Glass stems

These are strong stems used on floats for big fish. Fiber stems are also widely used on bolo floats. Diameters commonly used from 0.8 to 2mm.

Carbon stems

Lighter and stiffer than glass stems. Carbon stems are more sensitive than glass and are widely used for on the drop style fishing over loosefeed, for long lining or when you need to fish on deep venues. They are also widely used for reading lift bites.

BODIES

There are literally hundreds of different float body types. To keep things simple, round bodied floats are generally used in flowing water. Pencil or pear shape floats are more versatile and slender carrot style boodies used for delicate fishing in calm water.

Balsa

This material is both solid and sensitive.

Super competition foam

Aerospace grade top quality foam that won't take on water and has a totally consistent density. Floats designed for top flight match fishing!

PAINT

All the floats in our range have a special anti-capillary paint. This has the advantage of not sticking to the water surface whilst making sure all our floats are completely waterproof.

CARBON - PLASTIC BRISTLE - CARBON SENSITIVE - HOLLOW INSERT

MARENNES

This reversed body shape is popular with Italian anglers for trotting at distance or even using on lakes when fish back away from pole range. The reversed body both stabilises and holds back the float so it stays on line longer. The carbon stem is easy cast. This is a great float for trotting down the far bank of medium sized rivers or looking for wary skimmers and bream that keep backing off the pole line.

Stem : Carbon / Bristle : Bream /
Eyes : Classic eye

CRALUSSO BOLO

Keep your float on line longer! This model has been developed for trotting on rivers with rod and reel or on the long rod or bolognese. Stays on the right line longer than classic river floats - perfect for when the fish are a long way down your swim! You can hold back hard on these floats without pulling them towards the bank - a real plus when the fish want a bait slowly trundled down a swim! Comes with two fine bristles (red and yellow) and three shaped plastic antennas.

CRAZY HOLLOW ELASTIC

Created to meet the needs of the modern big fish pole angler, the Crazy hollow elastics are designed with a very high stretch ratio. This gives the angler the choice - ramp up the tension on your bung to get quick control over hooked fish or slacken it off to let the fish run and avoid pull outs... you decide! These elastics come with a built-in abrasion and UV resistant walls. A benchmark in hollow elastic design and performance!

FEEDER ACCESSORIES

SWIVELS - BEADS - PATERNOSTER LINKS

SLIDING LINK SWIVEL

Sliding link swivel- perfect for feeder rigs! Metal construction so it will not fall apart after repeated use.

Ref	Size	Qty/pack	RRP€
61394	S	6	2,25
61395	M	6	2,25
61396	L	6	2,25

SWIVEL + STOP BEAD

Swivel plus stop bead- great for attaching hooklengths to your feeder rigs and avoiding tangles. The swivel helps reduce line spin on your hooklength.

Ref	Size	Qty/pack	RRP€
22607	small	5	2,25
22608	large	5	2,25

SLIDING FLUOROCARBON FEEDER LINK

Designed as a sliding link for feeder fishing. Fluorocarbon helps to stiffen the boom and reduce tangles whilst casting.

Ref	Size	Qty/pack	RRP€
20791	6cm	3	2,75
05193	10cm	3	2,75

QUICK BEAD

Quick beads designed to swap over hooklengths in an instant. Light weight and discrete for optimum bait presentation.

Ref	Size	Qty/pack	RRP€
05091	PM	5	2,75

BLACK LINE STOPPER STRAIGHT

Perfect for blocking waggler or feeder rigs without damaging the line.

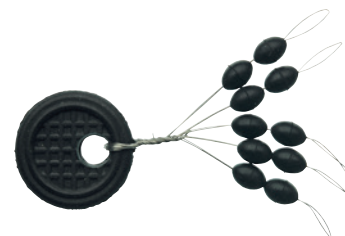

Ref	Size	Qty/pack	RRP€
31122	small	6	1,75
31123	medium	6	1,75
31124	large	6	1,75

RAPID ATTACH SWIVEL

For quickly swapping over hooklengths. Great for feeder fishing when you need to regularly adjust your hooklength to get bites.

Ref	Size	Qty/pack	RRP€
32999	small	6	3,95
33000	medium	6	3,95
33001	large	6	3,95

BLACK LINE STOPPER OVAL

Perfect for blocking waggler or feeder rigs without damaging the line.

Ref	Size	Qty/pack	RRP€
31587	small	10	1,75
31588	medium	10	1,75
31589	large	10	1,75

FEEDER CLIP SET

The feeder Clip Set is great for any ledger set up. You can quickly swap over leads. The stiff cone section reduces the risk of tangling on the cast.

Ref	Size	Qty/pack	RRP€
05041	PM	5	3,85

Christophe
CATHELIN

QUICK CHANGE KIT

Perfect for quickly swapping over feeder set ups and stiffens your rig to avoid tangles.

Ref	Size	Qty/pack	RRP€
04171	10cm	3	4,25

BEAD LINKS

Large plastic bead complete with link for fixing leger weights or feeders. 10 in a packet.

Ref	Qty/pack	RRP€
22625	10	1,84

MICRO SWIVEL WITH LINK

For perfect fixing of floats and ledger weights on the line with little risk of tangling.

Ref	Size	Qty/pack	RRP€
24576	PM (20)	10	2,75
24577	MM (16)	10	2,75

BEAD LINK SWIVEL

Sliding link swivel designed for quickly changing feeder set ups. The quick snap link lets you swap feeder sizes and models in seconds. Available in three sizes.

Ref	Ø mm	Qty/pack	RRP€
36935	N°20	6	1,75
36936	N°18	6	1,75

FEELING LOOSE HOOKS

CLASSIC

This range of hooks has been designed and recommended by Team Sensas match anglers. Made from special high carbon steel wire with exceptionally strong chemically sharpened points. The sizes and styles in this range cover all fishing situations from super fine bloodworm and pinkie hooks to maggot, caster and meat hooks. All Feeling hooks are incredibly strong for their size!

On this page you will find the stronger types hooks. Perfect for targeting bigger fish.

SENSAS HOOKS 3411 NICKEL

Same shape as 3410 but in nickel. Finer in the wire than the 3410, for delicate bottom fishing. Pack of 15.

Ref	N°	Ø mm	Weight (mg)	RRP€
54271	22	0.28	4.4	3,49
54281	20	0.3	5.4	3,49

54321	12	0.43	18.9	3,49
54331	10	0.46	24.4	3,49

SENSAS HOOKS 3405 BLACK

With a fairly fine wire, this hook has a wide gape and round bend perfect for maggot and pinkie. There's no sacrifice to the hooking power because the round bend stops the bait covering the hook point. Pack of 15.

Ref	N°	Ø mm	Weight (mg)	RRP€

56277	16	0.37	10	3,49
56278	14	0.43	18.9	3,49

SENSAS HOOKS 3410 BRONZE

Perfect for bottom fishing for big fish. Its shape keeps lost fish to a minimum. The wire gauge increases in proportion to the hook size which stops the hook opening out as the gape increases. Medium shank, round bend, bronze. Pack of 15.

Ref	N°	Ø mm	Weight (mg)	RRP€

56266	12	0.54	46.7	4,95
56267	10	0.57	52.1	4,95

These hooks have been developed for using in tougher fishing conditions for targeting both large and small fish. Perfect where optimum bait presentation is vital. They work especially well with bloodworm. Several of the models are equally at home for general small-fish-work, (small roach and bleak).

SENSAS HOOKS 4530 BRONZE

Barbless version of the 3530 for delicate speed fishing. Allows easy hooking without bait damage. Pack of 15.

FEEDER LOOSE HOOKS

New range of feeder hooks that make a welcome addition to the extensive SENSAS hook range. They are all strong and ultra-sharp. Within the range you will find different shapes and wire diameters in Bronze and Black Nickel which are the colours most used by feeder specialists. The 3180, for example, is a stronger version of the 8030 and the 3315 the Black Nickel version of the 3311, perfect for bigger fish. Technical hooks for serious feeder fans.

SHOT DISPENSERS

REGULAR

Styl weights have been used for decades by some of the world's top anglers. Even today they are perfect for slow falling rigs or fine adjustments to delicate shooting.

STYL INDV.BOX

These styls allow you to make minute adjustments to a rig. Perfect for highly sensitive floats which can be difficult to shot. Also helps a rig fall more naturally through the water.

JUMBO COMPACT 3000 SEATBOX

Compact by name and nature. This new JUNBO (36,mm leg) seatbox has been scaled down without sacrificing comfort or functionality.

Less bulky and lighter, with 4 offset legs that accommodate the new adjustable Jumbo tray and the mega Jumbo side tray, for example. One leg has a special screw fitting to take extra accessories like the new match mini-clip for feeder fishing or pole accessories.

We have also scaled down the price on this model to make it attractive to all match anglers.

JUMBO ACCESSORIES AND SETS

JUMBO SEATBOX TROLLEY EXTENSION

This Jumbo trolley extension is a vital piece of kit for any angler who has to move a lot of gear. To attach the extension to the rear of your seatbox simply remove the protective caps and inset the chariot into your seatbox frame then attach the wheels that come with the trolley extension into your seatbox. A clever screw system allows you to adapt the extension to all our Match, Jumbo and Nanoflex seatboxes. The extension will take plenty of extra gear like winder trays, rollers and accessory bags and get a better weight distribution whilst maintaining a low centre of gravity. There will be no need to leave any gear you might need at home in the future- thanks to the Jumbo trolley extension you can take it all with you!

Ref	Dim.	RRP€
27003	65x50x25cm	64,99
